

# Cautious Portfolio

## Quarterly fact sheet - April 2025

### Portfolio aims and objectives

The Cautious Portfolio aims for modest growth, with lower volatility. That means that while the value of your portfolio will be affected by market ups and downs, these will generally be smaller than if you invest in one of our higher risk-rated portfolios.

The portfolio could be right for you if:

- you want to grow your money modestly over the medium to long-term (at least five years).
- you're more focused on limiting losses than making large gains.

### Investment approach

The portfolio invests in a selection of funds across a range of assets like cash, bonds, and equities with exposure to UK and international markets. This diversification helps to reduce the likelihood of large fluctuations in portfolio values since individual assets will respond differently to market conditions.

The portfolio invests mainly in passive funds, which means they track stock market indexes. One of the benefits of this is that they're generally less costly to run than funds that are actively managed by a fund manager.

### Portfolio performance

	1 year	Since inception
Cumulative performance (%)	4.49%	12.67%

Past performance is not a reliable indicator of future performance.

The value of your investment and income generated will be affected by changes in interest rates, currency exchange rates, credit risk, derivative risk, social and political economic developments and general market conditions. To find out more, please click on the links for the individual funds in the table on page 2.

### Key information

Data as at	31 March 2025
Portfolio inception date	29 Aug 2023
Initial Charge	£0
Total Fund Ongoing Charge	0.09%
Historic Yield	3.05%
Investment Risk Level	Cautious
Income paid out from underlying funds is reinvested.	

All underlying funds are authorised and regulated by the Financial Conduct Authority in the UK.

### Risks

The value of investments may go up and down and you may get back less than you originally invested.

## Investment volatility

	Volatility	Maximum Drawdown
1 year rebased in £ Sterling (%)	4.27%	-1.76%

Volatility represents how wide 'standard' investment returns have been from the average.

Maximum drawdown is a measure of an asset's largest price drop from a peak to a trough.

## Target fund mix

Here are the funds that make up this portfolio. Click on each fund name to access the Key Investor Information Document (KIID), which gives you more detail on the fund's investment approach.

Fund	Allocation %	Sector
<a href="#"><u>Federated Hermes Short-Term Sterling Prime Fund Class 8 Shares Acc</u></a>	20.00%	Cash & Liquidity 20.00%

<a href="#"><u>Legal &amp; General Japan Index Trust C Class Distribution</u></a>	3.50%	

## Notes

- This portfolio is one of a range designed by HUB Financial Solutions, which is part of Just Group plc.
- Performance data is calculated net of management fees and fund costs.
- Past performance is not a reliable indicator of future results.
- All funds are denominated in UK Sterling but may hold assets in other currencies. The performance of the portfolio may therefore be affected by fluctuations in currency exchange rates.
- The total ongoing fund charge shown is correct as at the date of this factsheet but may vary in future. This does not include fund transaction costs.
- This investment portfolio includes funds that track market indices. As a result, the portfolio is not designed to consider environmental, social and governance (ESG) criteria.

- This portfolio may not be appropriate for investors who might need to withdraw their money in the short term.
- For specific risks applying to the individual funds within the portfolio refer to the relevant fund Key Investor Information Documents (KIIDs) - linked to from the fund names above.

To find out more about how the investment works, please read our **Destination Retirement Save - Our Service Explained** brochure. You can also read the Key Investor Information Document (KIID)/ Key Information Document (KID) for each fund within the portfolio. Just click on the relevant link in the table of funds above.
